Gentili colleghi

si trasmette la news 17-843 con cui il punto di contatto tedesco per il RASFF comunica che un individuo sconosciuto, in una lettera ricattatoria spedita a diversi destinatari tra cui la polizia, avrebbe minacciato di depositare presso mercati e farmacie sia tedesche che di altri Paesi europei, non ben specificati alimenti contaminati con sostanze tossiche potenzialmente letali allo stato liquido o solido, nel caso in cui le sue richieste di denaro non fossero state esaudite.

Le autorità ritengono che la minaccia sia da prendere in seria considerazione dal momento che la scorsa settimana il perpetratore ha depositato alimenti avvelenati in diversi mercati siti in un città del Baden-Wuerttemberg. Dal momento che la minaccia include anche i Paesi europei la Germania ha inteso condividere tali informazioni via iRASFF. In allegato il comunicato stampa congiunto del Ministero degli Affari rurali e della protezione dei consumatori del Baden-Württemberg, dell'ufficio del pubblico ministero di Ravensburg e del dipartimento di polizia di Konstanz.

Tanto si comunica per ogni consentita cautela e per eventuali indagini del caso. Nel caso vi siano ulteriori sviluppi sulla vicenda sarà cura dello scrivente fornire le informazioni del caso.

Additional information:

Attached you can find the announcement of a joint press conference that took place at noon today and the joint press release (in german language) of the police, the prosecution and the ministry of consumer protection of the federal state Baden-Wuerttemberg.

It can also be found in the internet: <https://mlr.baden-wuerttemberg.de/de/unser-service/presse-und-oeffentlichkeitsarbeit/pressemitteilungen/> <<https://mlr.baden-wuerttemberg.de/de/unser-service/presse-und-oeffentlichkeitsarbeit/pressemitteilungen/>>

The investigating authorities and the food control authorities take this threat very serious, because last week the perpetrator has already deposited poisoned foodstuffs in different food markets in a town in Baden-Wuerttemberg.

As the threat of the perpetrator also includes foreign countries we would like to share this information with the other member states via the RASFF network.
